## PROFESSIONAL EXPERIENCE

### JusCollege (United States)

Technology Operations Manager

January 2024 - Present

- Lead and mentor a team of college representatives and employees, fostering innovation and collaboration in the programs.
- Oversee the development and execution of technology-enhanced programs, ensuring quality experiences and efficiency.
- Manage and optimize the organization's technology infrastructure, implementing solutions to support dynamic operations.

### Sigma Chi Fraternity (Los Angeles, CA)

President (Consul)

December 2023 - Present

- Led and managed the chapter, comprising over 90 members, ensuring adherence to fraternity values and rituals.
- Effectively managed chapter finances, including reducing a \$20,000 debt, and oversaw event planning and budgeting.
- Maintained strong relationships and ensured compliance with university, headquarters, and campus organizations.

### RadicalX (Los Angeles, CA)

Software Engineer Intern

October 2023 - December 2023

- Assisted in the design and development of advanced AI models to address complex business challenges.
- Conducted rigorous data analysis and preprocessing, ensuring the accuracy of machine learning datasets.
- Collaborated with cross-functional teams to implement and refine AI algorithms and front-end development.

### DivergeIT (Torrance, CA)

Software Engineer Intern

June 2023 - August 2023

- Developed and programmed various IT solutions, honing in on advanced problem-solving and strategic thinking.
- Designed and implemented an AI chatbot, resulting in enhanced user interaction and company flow.
- Amplified knowledge of Microsoft Azure, IT operations, servers, networks, security, and more.

## PROJECTS

### Interactive Web Portfolio | Front-End

January 2024

- Developed a dynamic personal portfolio website with HTML, CSS, JavaScript, and Bootstrap to showcase skills, education, experiences, projects, and contact information.
- Enhanced personal branding and hosted on GitHub Pages for easy access.

### Stock Predictor - Web Application | Full Stack

December 2023

- Created a web app for stock price prediction, using HTML, CSS, JavaScript, Python, Flask, and machine learning.
- Demonstrated financial data analysis, machine learning, and finance-related practical application.

### Artificial Intelligence Chatbot | Full Stack

June 2023

- Built an AI chatbot with Python, TypeScript, Node.js, and GPT-3.5 Turbo, integrated into Teams for improved interaction.
- Leveraged advanced AI for efficient communication and task automation, boosting productivity.

### myGainz - Web Application | Full Stack

December 2022

- Designed a gym website app with React.js, HTML, JavaScript, and Tailwind CSS.
- Integrated external APIs for exercise information and demonstrations, facilitating gym program creation and tracking.
